PROTECT YOUR MOBILE WORKPLACE

Strong 2 factor authentication for mobile and office IT systems.

2 Factor-Authentication, Single-Sign-On, secure signatures, physical access – even time sheet traking and connection to your payment system are possible.

AWARDEDSECURITY

ONEKEY ID

FOR ID-000

The patented wireless smart card reader in the "mini SIM" format. With its compact and elegant design, ONEKEY ID is ideal for carrying on a key chain. Experience smart card features with Bluetooth Low Energy, USB and additional NFC interface in a compact design.

Use ONEKEY ID with the platforms Apple iOS, Android and Windows for an indefinite number of applications such as 2-factor authentication, smart card logon, encryption, the opening of doors and contactless payment.

AirID

FOR ID-1

The wireless smart card reader in format of a credit card. Thus, smart card functions of a conventional visual identity card can be used wirelessly on various end devices. AirID supports the platforms Apple iOS, Android, Windows, Linux and the interfaces Bluetooth Low Energy and USB. Also, the existing NFC function of the smart card is retained.

Discover the indefinite number of applications such as 2-factor authentication, smart card logon, encryption, etc.

- Physical access with electronic ID
- Off-device key security
- · And many more...

SECURITY

FOR YOUR PLATFORM

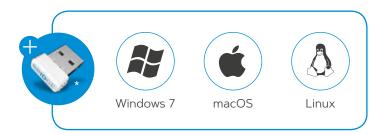

Windows 10

SUPPORT

FOR OTHER PLATFORMS

- ONEKEY BRIDGE enables the use of certgate ID products even on devices without Bluetooth Low Energy.
- Plug and Play: No additional drivers are needed to install ONEKEY BRIDGE.
- Highly secure: ONEKEY BRIDGE encrypts the Bluetooth connection between the device and the reader with AES 256.
- Compact design: Due to the USB nano design, the ONEKEY BRIDGE virtually disappears from your USB port.
- Multi-device option:
 Connection of multiple readers with a bridge is possible.
