

Evaluation-Kits

Welcome to the Evaluation-Kits area for certgate's smart card reader AirID and AirID Mini. The Evaluation-Kits with their demo use case enables you to experience the functionalities of the reader with Windows. It is a good starting point to become familiar with the exceptionally easy handling and effectiveness of certgate's wireless reader.

Included Demo Use Case

[WINDOWS 10 - Smart Card Logon on Windows - EIDAuthenticate](#)

We are pleased to support you during the installation and test process of our Evaluation-Kits. Please request support at sales@certgate.com
