

_A2 - HW Features - Device Features

Device Features

- 1 Low Power LCD Display
- 2 LED indicator
- 3 Jog dial control element
- 4 USB interface
- 5 Smart card internal slot

- 6 Second smart card connector (only with AirID 2)

Insert and remove a smart card

Insert the card chip first. The second smart card connector of the AirID 2 reader can read the chip regardless of which side the chip is on. The AirID 1 has only one smart card connector.

To remove the card, simply slide it with the finger through the cut-out.
