

Transition Support for GEMALTO End-Of-Sale Mobile PKI Products

Mobile PKI Products

END OF SALE ANNOUNCEMENT

GEMALTO has announced on July 17th, 2018 End Of Sale for Mobile PKI Products.

certgate will now support and help GEMALTO partners worldwide to continue their (wireless) mobile PKI smartcard projects by smooth transition to certgate's leading mobile PKI products, i.e. AirID, ONEKEY ID, cgCard and others. certgate has [created a dedicated website](#) after receiving multiple requests from the GEMALTO PKI partner ecosystem how to use certgate's proven, reliable Mobile PKI products to continue mobile smartcard rollout and projects in various countries.

We are looking very much forward in working with GEMALTO PKI Partners and any other organisation to provide mobile security for enterprise or public sector clients.

certgate is investing continuously into its product development to ensure leading edge security, usability and compliance. We provide strong standard products and in case of individual requirements, we are able to design and manufacture custom hardware and software.

Please contact certgate in case of any project transition support requirement.

Thank You, Jan Wendenburg
