

How to import a certificate onto a GIDS smart card using Certutil?

Question

How to import a certificate onto a GIDS smart card using Certutil?

Answer

To import a certificate on a GIDS smart card follow the steps below:

Step-by-Step

1. Open a command line with admin rights. (Search for CMD, right click the top result, and select Run as Administrator)
2. To import a P12 file please navigate to the folder that contains the file and type "**certutil -csp "the name of the CSP" -importPFX "PFXFile"**" (e.g. certutil -csp "Microsoft Base Smart Card Crypto Provider" -importPFX "demo.pfx").
3. Follow the prompt and enter the certificate PIN.
4. Enter the smart card PIN
5. After the successful import the message "**Certutil: -importPFX command completed successfully.**" will be displayed.
